

Creating a NordVPN Service Account by Using Activation Code

NordVPN®

This guide presents steps to be taken in order to create a NordVPN Service account by using activation code.

Open your favorite browser (i.e. Mozilla Firefox, Safari etc.) and enter the following URL in to the address bar <https://nordvpn.com/order/activate/> or just click on the previous link and follow the steps on the website:

1. Enter or copy / paste Activation Code in to the first field

The screenshot shows a form titled "Step 1 Submit activation code". Below the title is a label "Your activation code" followed by a single-line text input field.

2. Enter your e-mail address and password of your choice (Remember e-mail and password, you will need to launch the app)

The screenshot shows a form titled "Step 2 Choose account credentials". It contains two input fields: "Your email" and "Password". The "Password" field has a toggle icon (an eye) to its right. Below the "Password" field is a small information icon and the text "Password must be 8-48 characters".

3. Click on CREATE ACCOUNT button

The screenshot shows a single red button with the text "Create Account" in white.

4. After you have created your account, go to <https://nordvpn.com/download/> and download the most suitable version for your OS.
5. Install NordVPN, launch the program and type in your account credentials to start using the service.
